SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT
UNDER 37 CFR §1.56

Mail Stop AMENDMENT
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Submitted herewith on Form PTO/SB/08 is a listing of documents known to Applicants in order to comply with Applicants' duty of disclosure pursuant to 37 CFR §1.56.

A copy of each non-U.S. patent document and each non-patent document is being submitted to comply with the provisions of 37 CFR §1.97 and §1.98.

The submission of any document herewith, which is not a statutory bar, is not intended as an admission that such document constitutes prior art against the claims of the present application or that such document is considered material to patentability as defined in 37 CFR §1.56(b). Applicants do not waive any rights to take any action which would be appropriate to

antedate or otherwise remove as a competent reference any document which is determined to be a *prima facie* art reference against the claims of the present application.

The listed documents are being submitted in compliance with 37 CFR §1.97(c), before the mailing date of either a final action under 37 CFR §1.113, a notice of allowance under 37 CFR §1.311, or an action that otherwise closes prosecution in the application.

All references except F1, F2, F4, F5, F10, D1, D42-D44, D49-D51, D53, D56, D58, D61-D65, and D67-D70, are in English.

The English language abstracts of references F1 and F2 are available and attached to the original foreign language Patents. The structural depictions provided therein are readily understood.

Reference F4 was cited in the International Search Report for related Application No. PCT/US03/03022. Only the English language abstract is provided.

Reference F5 has no readily available English language equivalent, but structural depictions provided therein are readily understood.

Reference F10 is provided as a non-English language Patent. An English language equivalent has been published and is US Patent Publication No. 2004/0102630 (Reference P10).

References D5-D41 correspond to chemical abstracts cited by the Russian Patent Office in related Russian Application No. 2004126431, which corresponds to US Application No. 10/355,543.

References D43 and D69 are in the Russian language. Since these articles are being submitted for compounds identified in the chemical abstracts, and structure of those compounds are being provided concurrently (D5-D41), translations are not required.

References D1, D42-D44, D49-D51, D53, D61-D65, D67-D70 were cited by the Russian Patent Office during examination in related Russian Application No. 2004126431. English

language equivalents are not readily available, but the structural depictions are readily understood.

References D56 and D58 were cited by the US Patent and Trademark Office during examination of related US Application No. 10/991,684. English language equivalents are not readily available, but the structural depictions provided therein are readily understood.

For the documents where an English language translation of the foreign-language documents is not readily available, the absence of such translation does not relieve the PTO from its duty to consider the submitted foreign language documents (37 CFR §1.98 and MPEP §609).

Applicants respectfully request that each listed document be considered by the Examiner and be made of record in the present application and that an initialed copy of Form PTO/SB/08 be returned in accordance with MPEP §609.

Fees in the amount of \$180.00 in accordance with 37 CFR §1.17(p) to cover the fee associated with an information disclosure statement under 37 CFR §1.97(c) are being paid by credit card via EFS-Web.

The Commissioner is hereby authorized to charge any additional fees which may be required regarding this application under 37 C.F.R. §§ 1.16-1.17, or credit any overpayment, to Deposit Account No. 19-0741. Should no proper payment be enclosed herewith, as by the credit card payment instructions in EFS-Web being incorrect or absent, resulting in a rejected or incorrect credit card transaction, the Commissioner is authorized to charge the unpaid amount to Deposit Account No. 19-0741.

Respectfully submitted,

Date 6 June 2007
